CrafcO Engineered Performance Design

Designed for the contractor, the CrafcO Super SEALCOATER's standard features are considered options on all other competitive seal coat machines. Quality parts and superior construction make the Super SEALCOATER the machine of choice for everyday rigorous use. Features such as the unbreakable steel tank to the oversize hydraulic system set this unit apart from all the others. Built with CrafcO quality and engineered to last, choose the Super SEALCOATER for your next seal coat machine.

Options include:

- 35 Gallon On Board Water Flush System
- 2-1/2" Pintle Hitch
- 3" Pintle Hitch
- Spare Tire
- Automated Spray Bar
- Manual Spray Bar
- Operator's Seat
- Digital Flow Meter System

- 9 OPTIONAL WATER TANK CONNECTED DIRECTLY TO PIPING SYSTEM
- 10 TORSIONAL AXLES
- 11 10 GAUGE STEEL TANK w/ 3/16 INCH THICK BULKHEADS
- 12 VARIABLE AND REVERSIBLE HYDRAULIC SPEED CONTROL
- 13 6 FOOT WAND

Spray Bar Attachment

The CrafcO Super Sealcoater Spray Bar option is designed for seal coating projects too large for hand wand operation, making it ideal for parking lots and large pavement areas. The spray bar option installs fast and easy with no additional plumbing. A pneumatic switch activates the spray bar for material application from the operator rear seat position. The spray bar has two positions, one for transport and one for application. All CrafcO Super Sealcoaters (550 & 800) can be retrofitted for this option.
