

**Produce bulk No VOC asphalt cold patch - locally, easily, and profitably.**

## About Crafco

**Crafco** is a recognized leader in asphalt modification technology. Our materials development team innovates new products through ongoing research to provide safe, eco-friendly products that offer superior performance. **HP ER Enhancer** was developed with a focus on providing a safe and straightforward formula to produce **Crafco's** high-performance, eco-friendly, rejuvenating asphalt cold patch anywhere.

## What is HP ER Enhancer?

**HP ER Enhancer** is an organic viscosity modifier with a proprietary blend of rejuvenating and adhesion-promoting additives, designed to blend with paving grade asphalt to produce **Crafco's HP ER Binder** for cold patch production.

**HP ER Enhancer** is packaged in premeasured totes for easy shipping and storage and is ready to add to paving grade asphalt in any blending tank. **HP ER Enhancer** is safe to blend with paving grade asphalt at elevated temperatures with a higher flash point than conventional diesel.

Blended to the appropriate viscosity supplied by **Crafco** expert chemists, the result is a genuine high-performance, eco-friendly asphalt binder with rejuvenating properties used to make cold patch. **HP ER Binder** is environmentally friendly, manufactured with **no VOCs**. **HP ER Binder** is safe to use in all hot mix production plants, including drum or batch, as well as cold mix pugmills.

## Program Benefits

### Produce Locally

**HP ER Enhancer** can be shipped to any location around the world that has asphalt blending capabilities. AC suppliers can blend Enhancer to be sold for cold patch production. Cold Mix producers with blending capability can purchase Enhancer directly from **Crafco** to produce high performance binder. We make it simple, safe, and cost-effective.

### Support Network

**Crafco** provides on-site support throughout the process. When you're ready to blend, our engineers will provide AC integrating analysis and instructions. And when you're ready to start production, they'll provide an aggregate analysis & asphalt mix design.

### Benefits of HP ER Asphalt Cold Patch

- ▶ True High-Performance Cold Patch
- ▶ Profitable
- ▶ No VOC – Eco-friendly
- ▶ Safe to produce and use
- ▶ Easy to maintain stockpiles
- ▶ Crafco technology and support
