

Heat Lance

Faster pavement prep

Clean cracks and other pavement distresses for repair more efficiently with Crafco's powerful innovative Heat Lance. The combination of compressed air and heat blasts away loose debris and organic matter while drying and warming the pavement. Built for durability with high-quality materials, the Heat Lance carries a 1-year warranty against defects and workmanship. Speed up your pavement preparation with the Heat Lance and get done faster.

BENEFITS

Removes vegetation and flammable debris

Warms pavement in cool weather

Dries moist pavement prior to sealing

Smooths and blends edges of pavement repairs

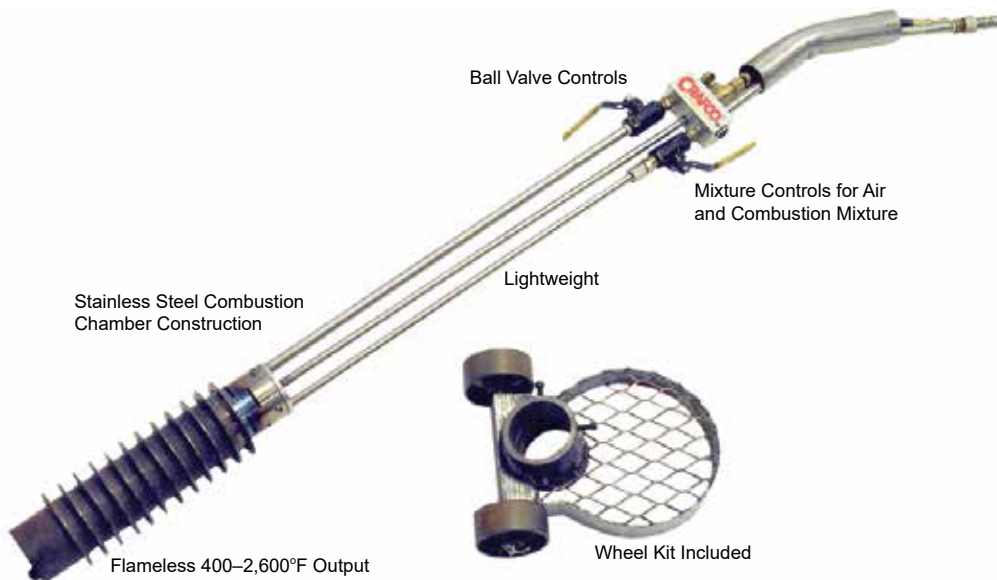

Heats and Dries Pavement

RECOMMENDED USES

Use the Heat Lance to dry and prepare pavement cracks, potholes, and other distresses for repair. Separate valves control the mix of fuel and compressed air for complete ignition inside the stainless steel combustion chamber, providing a flameless stream of heat up to 2,600°F, with air velocity up to 3,000 feet per second.

A heavy-duty wheel kit comes standard with the Heat Lance for easy, consistent control. Also included is a 40-foot hose, LP gas regulator, air regulator gauge, water separator, standard Chicago tank fittings, and abrasion wrap with quick-connect fittings.

AVAILABLE MODELS

45650 High-Velocity Heat Lance with 40' Hose

45660 High-Velocity Heat Lance with 60' Hose

32259 Low-Velocity Heat Lance with 50' Hose

The powerful High-Velocity Heat Lances require a hook-up to propane as well as a commercial high-output air compressor while the Low-Velocity Heat Lance operates with propane only.
