PavePrep SA is a heavy duty, high strength geocomposite self-adhesive membrane used to reinforce and waterproof pavement cracks and joints, to reduce reflective cracking of asphalt concrete overlays, and as heavy duty bridge deck waterproofing membrane. PavePrep SA is composed of a flexible, high density asphalt mastic bitumen between a top layer of heat resistant, high strength woven polyester reinforcing fabric and a bottom layer of non-venon heat resistant polyester fabric with a polymer modified asphalt self-adhesive layer and removable release liner. PavePrep SA is available in several widths in 50 ft. lengths and is wound on rolls. To use, PavePrep SA is removed from the box, unrolled onto prepared pavement surfaces while removing the release liner to expose the self-adhesive layer, and then pressure rolled to secure in place. For some uses, and when pavement surface temperature is below 70°F (21°C), primer is required prior to installation. The asphalt concrete overlay is then placed on top of the installed PavePrep SA membrane. PavePrep SA can be used to reinforce and waterproof many discontinuities in both asphalt and concrete pavements, including transverse and longitudinal cracks and joints, utility cuts, construction joints, and previously repaired areas. The PavePrep SA polyester fabrics are resistant to asphalt concrete pavement overlay temperatures up to 350°F (177°C) and hot-applied sealing mastic application temperatures up to 375°F (191°C).

**Number of pallets per truckload may vary depending on truck weight and size. 24 pallets will normally fit on a minimum 48’ truck.**

**Storage**
PavePrep products are to be stored indoors at temperatures not exceeding 120°F (49°C) and kept dry.

**Warranty**
CRAFCO, Inc. warrants that CRAFCO products meet applicable ASTM, AASHTO, Federal or State specifications at time of shipment. Techniques used for the preparation and installation are beyond our control as are the use and application of the products; therefore, CRAFCO shall not be responsible for improperly applied or misused products. Remedies against CRAFCO, Inc., as agreed to by CRAFCO, are limited to replacing nonconforming product or refund (full or partial) of purchase price from CRAFCO, Inc. All claims for breach of this warranty must be made within three (3) months of the date of use or twelve (12) months from the date of delivery by CRAFCO, Inc. whichever is earlier. There shall be no other warranties expressed or implied. For optimum performance, follow CRAFCO recommendations for product installation.
