SECTION 4: First aid measures

General information
If you feel unwell, seek medical advice (show the label where possible). Discard any shoes or clothing items that cannot be decontaminated.

4.1. Description of first aid measures
- **Inhalation**: Get medical attention, if needed.
- **Skin contact**: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Thoroughly wash (or discard) clothing and shoes before reuse.
- **Eye contact**: Get medical attention if irritation develops and persists.
- **Ingestion**: Rinse mouth. Do not induce vomiting. Do not use mouth-to-mouth method if victim ingested the substance.

4.2. Most important symptoms and effects, both acute and delayed
In case of ingestion, the decision of whether or not to induce vomiting should be made by the attending physician. Certain pre-existing conditions may make workers particularly susceptible to the effects of this chemical: asthma, allergies, impaired pulmonary function.

Asphalt (CAS 8052-42-4)
Can be absorbed through the skin.

8.2. Exposure controls
Appropriate engineering controls
Provide adequate ventilation, including appropriate local extraction, to ensure that the defined occupational exposure limit is not exceeded.

Individual protection measures, such as personal protective equipment
General information
Use personal protective equipment as required. Keep working clothes separately.
Eye/face protection
Wear safety glasses; chemical goggles (if splashing is possible). Wear chemical goggles; face shield (if handling molten material).

Skin protection
- Hand protection
Chemical resistant gloves are recommended. If contact with forearms is likely wear gauntlet style gloves.
- Other
Wear suitable protective clothing and eye/face protection. Use of an impervious apron is recommended.

Respiratory protection
When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

Thermal hazards
During product use, there is a risk of thermal burns.

Hygiene measures
Handle in accordance with good industrial hygiene and safety practices.
