NoBox™ Meltable Packaging

CRAFCO®
PRESERVATION PRODUCTS

Not all meltable packaging is the same

Discover the difference with Crafco's NoBox™ meltable packaging for sealant and mastic products. NoBox packaging streamlines operations, offering labor-saving convenience compared to traditional boxed packaging. Crafco NoBox packaging melts quickly and completely. Unlike other foam and corrugated-poly boxes, Crafco's meltable packaging leaves no residue inside the melter sidewalls or agitator shaft and will not clog the pumping system. Avoid the hassle with Crafco NoBox meltable packaging.

BENEFITS

- Fast and complete melting
- Eliminates cardboard hassle and waste
- No messy residue or clogging issues
- No need for additional equipment
- Packaging will not retain moisture

The Smart Upgrade

SAVE LABOR, SPACE AND HASSLE

Upgrade your sealant and mastic experience with Crafco's NoBox™ packaging. Say goodbye to labor-intensive opening, breaking down and disposal of boxes. With our innovative packaging solutions, you'll enjoy faster, safer, and more efficient operations without sacrificing material performance.

Crafco's lightweight, durable NoBox packaging:

- Melts completely within seconds
- Does not affect specification conformance or field performance
- Reduces time and labor from opening, unloading, breaking down and transporting cardboard boxes
- Reduces injuries from razor knives and repetitive motions
- Eliminates cardboard disposal for increased sustainability
- Meets all state and FTC labeling requirements
- Does not leave residue buildup on tank walls or agitator shaft
- Will not clog pumping system
