

STAR, Inc. and Crafco, Inc. Proudly Announce Additional Licensed Technology Territory

Crafco, Inc., headquartered in Chandler, Arizona an industry leading supplier of pavement preservation products, along with its Paving Maintenance Supply Division (PMSI) has entered into an additional technology licensing agreement with STAR, Inc., to utilize the STAR Sealcoat Technology at its sealcoat plant in Edmond, Oklahoma which serves Oklahoma, South Central and Western Kansas, and Northern Texas. The Edmond plant also operates a full-service store for the A to Z needs of pavement professionals. In addition to the Edmond plant, Crafco's Evansville, Indiana location has also been operating under STAR's technology and License support since 2013. Crafco will now be able to supply STAR sealcoat products from its nine locations in Oklahoma, Texas, Kansas, Missouri, Indiana, and Tennessee, as well as bulk sealcoat customers in those regions.

Don Brooks, President of Crafco, Inc., said "Crafco is very excited about adding our Edmond plant to the STAR Family of sealcoat facilities. We are looking forward to working with all other STAR companies to grow the STAR brand name in the marketplace."

Girish Dubey, President of STAR, Inc., said " ...I welcome your Edmond plant as the newest member of our STAR Family....I am sure that our association will be mutually rewarding and help forge ahead our prestigious position in the industry."
